

How can we Accelerate the Learning ?
(Quick Version)

1. Tutor input and instruction are limited to 30 minutes or less in any hour
0 10

2. Learners are active for twice as much time as the tutor overall
0 10

3. Learners make **EQUAL** use of their

- Hands
- Feet
- Mouths
- Eyes
- Ears

in accomplishing the learning

0 10

4. The most important learning can be gained from imagery and physical activity
(neither spoken instruction, or reading of prose, is essential)
0 10

5. The learning is not like "work", learners approach it more like

- a. a leisure pursuit
- b. a holiday activity
- c. "fun", or play

0 10

6. The overall mix of input- and activity-styles is varied and satisfying for a range of learning preferences
0 10
